Manager's Corner

A **Big Welcome** to our new employee, Claudio Sandoval who will be providing custodial services.

Our semiannual apartment inspection went very well. A **BIG THANK YOU** to all the residents who take pride in their apartment's tidiness.

Good housekeeping means that you need to keep your apartment clean and sanitary at all times. This especially applies to the range/oven, refrigerator and bathroom. Also, please report any signs of pests within 2 (two) days.

It is important to familiarize yourself with your privileges and responsibilities under your lease and the resident policies addendum. Management makes periodic inspection of all apartments to insure compliance. For everyone's well being, we would greatly appreciate your cooperation

and compliance.

And we are scheduled for window washing this month.

New office hours! We are now open from 8:00 AM to 4:00 PM with an hour break for lunch.

I wish you ALL the very best with blessings in abundance, good health, and joy to see you through every day.

Chili represents your three stages of matter: solid, liquid, and eventually gas.

Have you heard about the woman who stabbed her husband thirty-seven times? ... I admire her restraint.

Women complain about PMS, but I think of it as the only time of the month that I can be myself.

I know how to do anything — I'm a mom.

My husband said he needed more space... so I locked him outside.

I consider myself to be a pretty good judge of people... that's why I don't like any of them.

Men can read maps better than women... cause only the male mind could conceive of one inch equalling a hundred miles.

Women are cursed, and men are the proof.

Half the world's starving; the other half is trying to lose weight.

I used to want to be a movie star so I wouldn't have to live in trailers anymore. And now that I make movies, I spend a lot of my life living in trailers.

I'm not going to vacuum 'til Sears makes one you can ride on.
